

Final Programme of WFITN 2007 (Day 3- September 12)

Time	Venue	#	Topic	Speaker / First Author	Country
16:21~16:30	Room 102	P47	Intracranial Stenting in the Treatment of Wide-Necked Aneurysms	Marco Leonardi	Italy
16:31~16:40		P48	Use of Onyx in the treatment of wide necked intracranial aneurysms: immediate and mid term results in 74 patients	Piske, RL	Brazil
16:41~16:50		P49	Management of Giant MCA Aneurysms with Incorporated Branches: Intentional Partial Endovascular Coiling or Combined Extracranial-Intracranial Bypass – A Team Approach	Zhong-Song Shi	USA
16:51~17:00		P50	Traumatic Vascular Lesions in the Neck Treated with Covered Stents: Midterm Follow up	Fernando Gómez	Columbia
16:01~17:00	Room 105	Free Paper (Oral Presentation): 8min presentation 2min discussion Moderator: N. Kuwayama(Japan) A. Biondi (France)			
16:01~16:10		P51	Sole stenting in the management of aneurysms of the posterior circulation: A prospective series of 20 patients	Santos-Franco JA	Mexico
16:11~16:20		P52	Percutaneous vertebroplasty in post-traumatic	Umair Rashiid	Pakistan
16:21~16:30		P53	Endovascular treatment of intracranial aneurysms and carotid-cavernous fistulae with stent grafts: experience in 15 patients	Jiang chuhan	China
16:31~16:40		P54	AVM embolization with Onyx: cases from Unidad de Radiologia Intervencionista, Caracas.	Miguel Naranjo	Venezuela
16:41~16:50		P55	Early and long term results of endovascular treatment of vertebro-basilar region aneurysms with use of MDS coils	Kolasa Maciej	Poland
16:51~17:00		P56	Initial Experience of Cashmere coils in the Treatment of Ruptured Intracranial aneurysms	R Sellar	UK
17:01~18:00	Room 102	General Assembly Meeting of WFITN			

WORLD CONGRESS OF OZONE THERAPY JOINT MEETING WITH THE WFITN CONGRESS

Chairmen: Prof. Marco Leonardi (Italy) Prof. He Xiaofeng (China) Discussants: Dr Vijay Kumar (India) Dr. Cosma F. Andreula (Italy)

14:00~16:00	Invited Lecture: 10min presentation 5min discussion				
14:01~14:15	OZ01	Brief historical review and mechanisms of action	M. Bonetti	Italy	
14:16~14:30	OZ02	Pathological Findings in Animal Study after Intra-Discal, Epidural and Intraforaminal Injection of Oxygen-Ozone	M. Muto	Italy	
14:31~14:45	OZ03	Medical Oxygen-Ozone Therapy: Minimal Invasive Percutaneous Nucleolysis. Experimental Study in Animal Model	C. Alagra Lampaignere	Spain	
14:46~15:00	OZ04	Paravertebral and intraforaminal injections.	J. Baeza Noci	Spain	
15:01~15:15	OZ05	Interventional spinal Procedures: Diskolysis with Oxygen-Ozone Mixture	C. Andreula	Italy	

Final Programme of WFITN 2007 (Day 3- September 12)

Time	Venue	#	Topic	Speaker / First Author	Country	
15:16~15:30	Room 107	OZ06	Muscolo-skeletal applications	E. Genovese	Italy	
15:31~15:45		OZ07	Clinical Studies of Ozone-Oxygen Mixture to Treat Lumbar Disc Herniation	He Xiaofeng	China	
15:46~16:00		OZ08	Ozonucleolysis (Ozone Discectomy) for discogenic radiculopathy arising from disc herniation: One year follow up study from India	V. Kumar	India	
16:01~16:30		Coffee Break				
16:31~18:00		Free Paper (Oral Presentation): 6min presentation 2min discussion				
16:31~16:38		OZ09	Oxidative Effect of Different Concentration of Ozone Injected into Porcine Normal Lumbar Disks	Jin Lin Tian	China	
16:39~16:46		OZ10	Changes of Cerebrospinal Fluid and Spinal Pathomorphology after high Concentration Ozone Injection into Subarachnoid Space: an Experimental Study in Pigs	Jin Lin Tian	China	
16:47~16:54		OZ11	Primary study on pressure –controlled lumbar intradiscal ozone injection with flexible puncture needle through inner margin of small joint	Zhao Wei	China	
16:55~17:02		OZ12	Ozone Discolysis at the Cervical Level	Marco Leonardi	Italy	
17:03~17:10		OZ13	CT Guided Ozone Injection for the Treatment of Cervical Disc Herniation	Yueyong Xiao	China	
17:11~17:18		OZ14	Intradiscal Injection of O3 for the Treatment of Lumbar Disc Herniations: Clinical Therapeutic Effect Analysis	Jiang Jian-wei	China	
17:19~17:26		OZ15	CT Guided Ozone Injection for the Treatment of Lumbar Disc Herniation	Yue Yong Xiao	China	
17:27~17:34		OZ16	CT Guided Intradiscal and Paraspinal Space Ozone Injection in the Treatment of Lumbar Disc Herniation	Peng Yong	China	
17:35~17:42		OZ17	Long term effect of medical ozone in the treatment of lumbar disc herniation	Yu Zhijian	China	
17:43~17:50		OZ18	Mini-Invasive Treatment of Symptomatic Lumbar Disc Disease by Oxygen-Ozone Injection in Acute	Marco Leonardi	Italy	
17:51~17:58		OZ19	A Comparative Study between Ozone and Ozone combined with Discectomy Therapy for LDH by Different Puncture Approaches	Li Chengli	China	
17:59~18:06		OZ20	Combination Therapy of Percutaneous Partial Discectomy and O3 O2 Injection Treatment Protocol for Massive Disc Prolapse: A Preliminary Study.	V. Kumar	India	
18:07~18:14		OZ21	Ozonotherapy for Herniated Lumbar Disc. Results after 1 Year Follow-up in 300 Patients	J. Vyletelka	Slovakia	
18:15~18:30			Conclusions	V. Kumar	India	
19:00~21:30		Gala Dinner with Chinese traditional performance in Jluhua Convention Center
